

Ministry Safe Training

As a church, Central Baptist Church is committed to providing, as much as possible, a safe and secure environment for all children entrusted to its care. This includes protecting children from sexual predators and anyone else whose history or character suggest that they reasonably pose a risk to the health and well-being of children with whom they may come in contact in connection with their service to or with the board.

Child abuse prevention is a topic that concerns everyone working with children, especially when it comes to preventing sexual abuse. Providing abuse training for volunteers and employees is a necessity when you consider the staggering number of lives that have been hurt and, in some cases, destroyed by some form of sexual abuse during childhood.

Ministry Safe is especially helpful for churches, given the escalating number of sexual abuse cases. Church safety programs are in desperate need of edification and support in order to protect the next generation. Ministry Safe is designed to educate us on the prevention of child abuse.

Directions:

1. Go to www.ministrysafe.com
2. Log in with Central's training code (will be emailed to you)
3. Watch video and complete training
4. Forward your certificate of completion to the Missions office (missions@centralbcs.org)
